Course Description

Permanent Cosmetics for Arkansas Licensure - **375 hours**

Permanent Cosmetics is a cosmetic technique which employs tattoos (permanent pigmentation of the dermis) as a means of producing designs that resemble makeup, such as eyelining (eye shadows and mascara) and other permanent enhancing colors to the skin of the face, lips and eyelids. It is also used to produce artificial eyebrows, particularly in people who have lost their eyebrows as a consequence of old age, disease, such as alopecia, chemotherapy or a genetic disturbance, and to disguise scars and white spots in the skin such as in vitiligo. It is also used to restore or enhance the breast's areola, such as after breast surgery.
